

Vensai Technologies

"Providing Quality, Value, and Change"

Case Study

QuieTrack Insurance Services Corporation

About the Client:

QuieTrack Insurance Services Corporation is a privately owned, California domiciled, Managing General Insurance Agency that focuses on uninsured collateral risk mitigation for small to medium sized west coast financial institutions. We are primarily regulated and licensed by the California Department of Insurance and have the ability to conduct business in any state of the union.

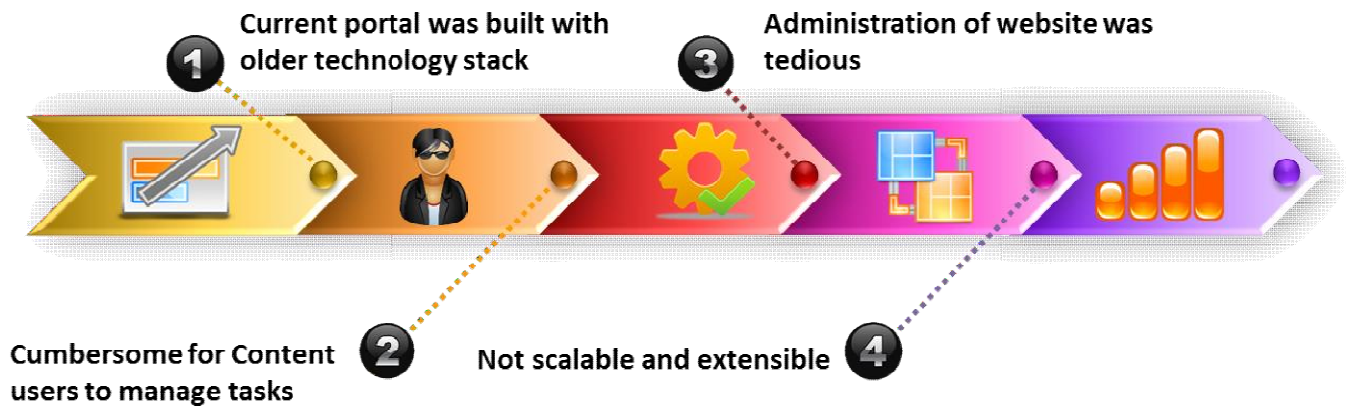

QuieTrack provides, Collateral Protection Insurance, Mortgage Hazard Insurance, Equipment Physical Damage Insurance, Forced Ordered Flood Insurance, GAP Insurance, insurance tracking services and insurance tracking software development and support. Headquartered in Santa Rosa California with sales representatives through out the Western United States, QuietTrack excels at relationship-centric services, cutting edge software and value constant insurance products that exceed our client's expectations.

The Business Problem:

QuieTrack Insurance Corporation required the services of a Qualified and Experienced Implementation Partner for Cloud Based Portal Deployment.

Challenges:

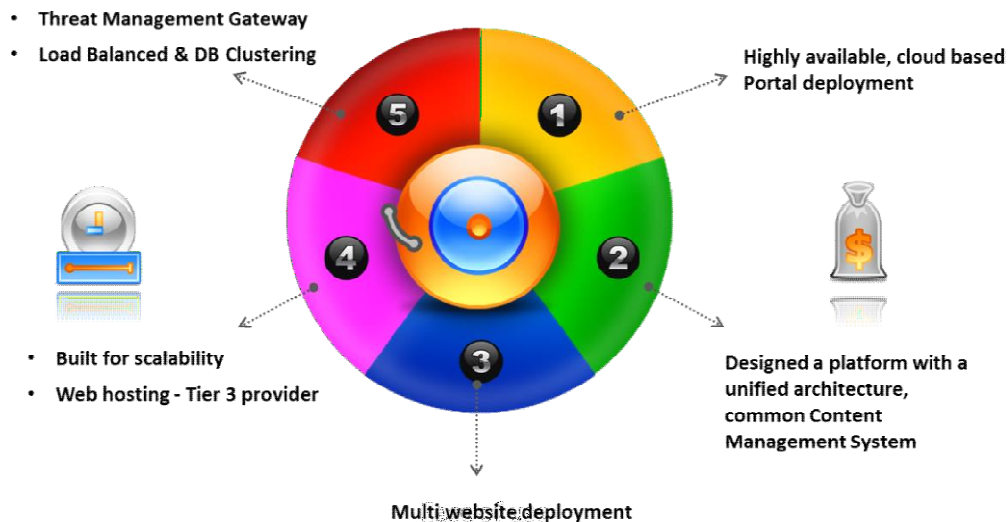

Our Solution:

Vensai Technologies capitalized on the opportunities i.e. to build a cloud based internet Insurance Tracking System for QuieTrack Insurance Corporation. With our quality services we designed a smart solution where in QuieTrack Users and partners can make use of a common platform and technologies that will meet their corporate requirements.
